Welcome to our second Avenues brochure.

Avenues has grown to be one of our most established collections.
It comprises four different ranges - *Lexington, Madison, Siena* and *Apollo*.
All of them strong, clean, and uncomplicated.

Avenues pieces do not shout – they are understated and elegant.
As Le Corbusier once said of a table made for him by his friend Jean Prouvé:
“The table is so perfect I haven’t even noticed it yet”

All pieces are handmade in our UK workshop by our highly skilled craftspeople.
Their work is impeccable and perfectly finished throughout the range.

The beauty of Avenues is that every piece is fully customisable.
Dimensions, shape, top, and colour can all be chosen to suit your requirements.

There are a multitude of metal finishes available, from hand polished
stainless steel to blackened steel.

Tops may be in glass, stone, or metal. Go further and you can choose between
mirrored, antiqued and ‘verre églomisé’ glass, or many different and interesting
marbles, or even between polished and aged bronze.

Avenues - Designed by you, built by us.

SPECIFYING YOUR AVENUES TABLE

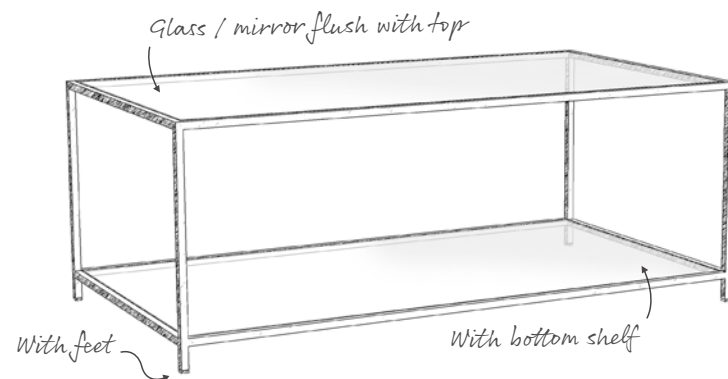

This page shows the standard details that differentiate each design in the Avenues collection.

The beauty of Avenues is that every piece can be tailor made to suit your requirements. Apart from the many finishes and top options, you can customise further by adding shelves or even have a hybrid design - so for example a coffee table in a *Sienna* frame size (20 x 20mm) with a *Madison* foot detail, or an *Apollo* table without a bottom shelf. The possibilities are endless.

Avenues - designed by you, built by us.

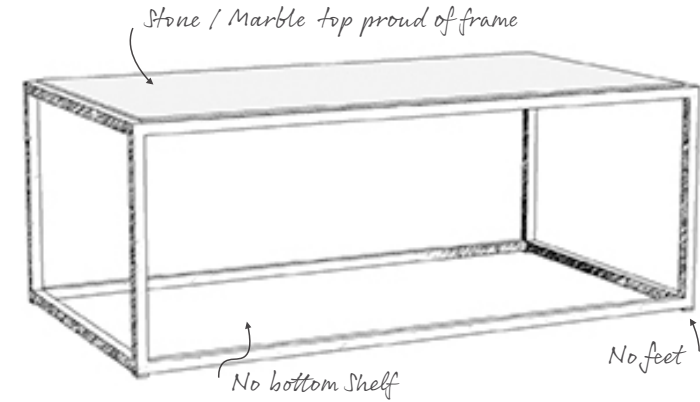

LEXINGTON

12 x 12mm frame

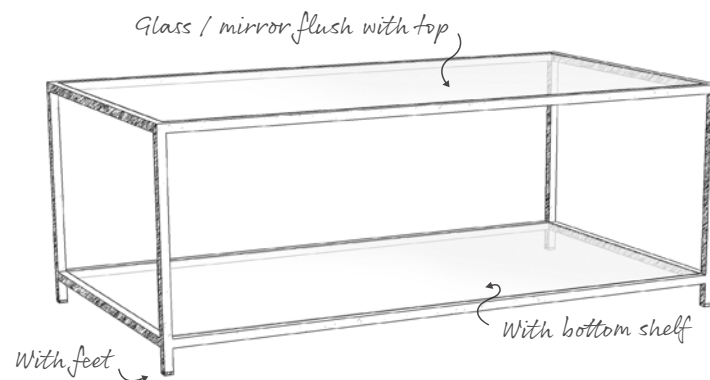

SIENA

20 x 20mm frame

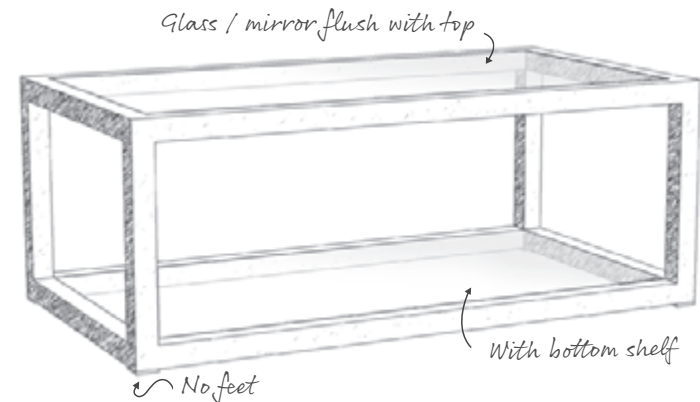

MADISON

16 x 16mm frame

APOLLO

40 x 40mm frame
