TF

TOM FAULKNER

Welcome to our product catalogue – where you will find our entire collection.

Each piece is shown complete with size recommendations and finish options. However, as everything is made to order, all designs can be made to custom sizes and finishes.

Our specialisation is metalwork - mostly steel or bronze, but also aluminium and brass - combined with glass, wood, or marble. While designing the collection I have always tried to use the inherent qualities of these materials to create strong and distinctive pieces.

We would love you to visit us - we have a showroom in Chelsea, London where you can see the collection, ask questions, look at finishes, and explore our world.

We are represented in various international showrooms as well - details of which can all be found on our website. And we ship all over the world.

We look forward to hearing from you, we are big fans of the telephone so please do call us any time to discuss your next project +(44) 20 7351 7272.

Tom Faulkner

Our workshop in Wiltshire is at the heart of what we do. Our team of skilled craftsmen and women is dedicated to producing work of the highest quality.

We work with steel, aluminium, bronze, and brass. We have a huge selection of colours and patinas to choose from - including several specialist finishes which are unique to us, with a depth and sophistication that is second to none.

We put our heart and soul into everything we make. Our workshop is on the site of the Great Western Railway coachworks built by Isambard Kingdom Brunel in the 1830s, and we are very proud to be part of that great British design and engineering heritage.

Finishes and materials

We have many different and beautiful finishes for our metalwork, and several options on table tops, including choices of glass, wood and marble.

All of our unique specialist finishes on steel and bronze have been created by us and they are all applied by hand.

We have a choice of leathers and fabrics for our upholstery.

Steel finishes

Steel may have either a - this is normally a powder coating, which is very durable and even, or a - this is applied by hand using metal powders, varnishes, and pigments.

Costa Smeralda

Solid wood table tops

The texture and warmth of wood can combine beautifully with the clean, crisp lines of our table bases. Being a natural material, there will always be slight colour and grain variations in wood, but as a table is used, it will develop a unique patina to tell its own story. Most of our table tops are oiled and waxed.

Whitened oak

Walnut

Veneered table tops

Our solid wood veneers are oiled and waxed.

Our beautiful coloured veneers are used for our *Atlantic* collection. They are made with innovative technology with multilayered scrylic resins and paper. They are anti-fingerprint and scratch resistant, with a delightful soft touch.

Polished stainless steel

Bronze patinas

Heat and chemicals can accelerate the aging process of bronze, giving beautiful, deep patinas in a variety of rich and varied colours. No two pieces are ever identical.

Verdigris

Moss green

Scorched earth

Bottle green

Autumn

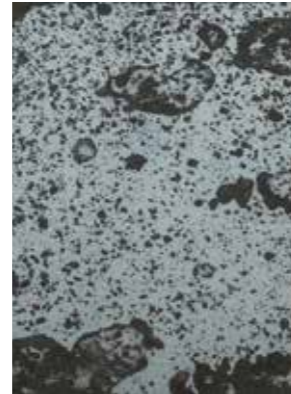

Aged bronze

Antiqued mirror glass

Many of our tables are available with beautiful antiqued mirrored glass, replicating the age and warmth of vintage mercury mirrored glass. Each piece is made individually so no two pieces will ever be exactly the same. We also supply "Verre Églomisé" (gilded glass) mirror, where metal leaves are applied to the back of glass giving a beautiful soft reflection. Here the overlapping metal leaves can also be seen, adding subtlety and variation.

White gold leaf verre églomisé

Champagne leaf verre églomisé

Mint green tinted silver verre églomisé

Lily garden table tops

Lily tops are made of marble, bronze or steel, or they are cast in coloured glass.

The garden Lilies are made of stainless steel (for outside) and finished in one of nine vibrant outdoor colours.

Glass table tops for Lily cocktail tables

Lily tops are made of marble, bronze or steel, or they are cast in coloured glass.

The glass - in beautiful jewel colours - is cast by hand in Venice using the Murano technique.

Butterfly finishes

Butterfly finishes, each named after british butterflies, are a subtle blend of colours that slowly fade in and out of each other creating a special “ombré” effect. They were developed for our *Papillon* collection but are available on many other pieces too.
