Quality

Craftsmanship

Julian Chichester has an enviable international reputation for high quality manufacturing, a truly innovative approach to material usage and regularly introduces unusual finishes across its extensive range of desirable designer furniture.

Such a well established reputation is built on many years of experience and supported by considered development, investment in its processes and through valuing its people, all working to ensure the best service and peace-of-mind.

Teardrop Mirror, Circus Lamp, Small Pear, Percy Desk, Dorothy Chair

Custom & Bespoke

Just as with fine tailoring, Julian Chichester offers to make its designs uniquely fit a customer's individual personality, from upholstering a chair in their own fabric to finishing a cabinet in almost any paint colour of their choosing.

For more specialised projects, such as making changes to size, materials or finish, they give the ultimate in personal bespoke service. View the "Custom Make It" section online.

Contract & Hospitality

Working with our design team allows you to distinguish your project to be both surprising and familiar, appropriate for use in the world's most exclusive hospitality destinations.

Our vertically integrated design studio and manufacturing facility ensure quality and responsive lead times on high volume rollouts. Specialist industry requirements, with their stringent durability, fire and safety tests, are all a matter of course. View the "Hospitality & Contract" section online.

Sampling & Finishes

Julian Chichester is constantly evolving new finishes and using materials in innovative ways, from metals, woods and faux shagreen to other artisan-crafted options, which include Leather, High Gloss Vellum and Faux Gesso.

Natural materials may have joins or variations in colour and appearance. They can look different as they age over time, or how they reflect light, which is integral to their beauty. It is these differences which make each piece unique.

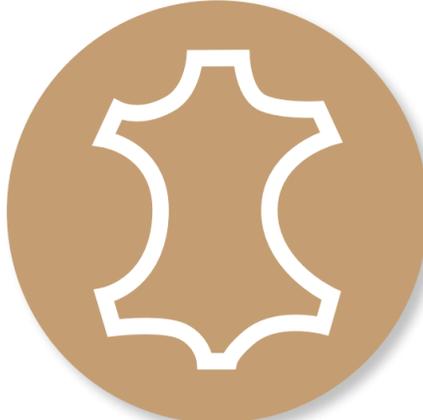

Hand Finish

Bronze and **Gesso** are hand applied and therefore have an attractive artisan finish, giving a unique appearance and texture. **Eglomise** is also applied by hand so will have variations. **Brass**, **Brass Wrap** and **Variegated Nickel** are all moulded to fit and hand beaten to create a unique finish on each item.

Natural Wood

Bleached Oak Washed uses quarter sawn panels because of their naturally flecked medullary rays. Natural levels of tannin content in each piece mean slight variations are inevitable. **Rustic** and **Torched Oak** have thick layers of wood carefully laminated together which means some inevitable surface checking.

Natural Skin

Vellum and **Leather** are natural skins and **Bone** is also natural, so no two pieces are exactly alike and joins will be necessary. Shade and tone variations are part of their attraction and each piece will react differently to the dyeing process, subtly changing colour over time, adding a further dimension to the finish.
